

Our Philosophy

We've seen the tremendous academic successes recorded by Asian kids living in the diaspora. Our investigation shows that this is hinged on one major reason: community-oriented learning support. With the right motivation and planning, LOOMI's African teachers have shown admirable commitment towards education support for African kids living in the diaspora from Ore K- Grade 10. Over the past 5 years, we've created success stories for hundreds of children across Canada, the US, Australia and the United Kingdom.
